

## Kenadrain / GRATING WIDTH 130

Code : GDE10BN

### FUNCTION:

This grating is designed to drain run-off water. It can be used in footways, pedestrian areas and comparable zones, private car parks or car parking decks in class **B125**.

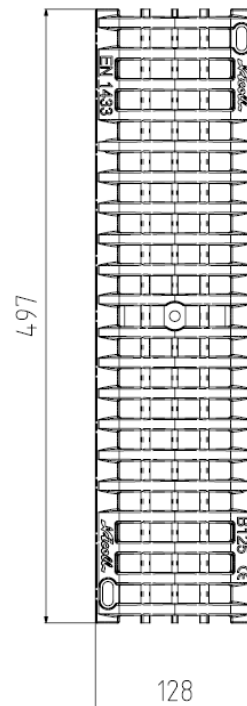

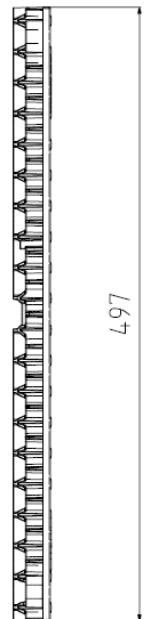

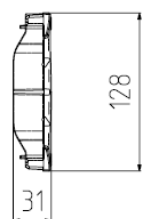

### TECHNICALS CHARACTERISTICS:

- Grating length : 1,00 meter
- Grating width : 128 mm
- Weight : 0,647 kg
- Drainage surface : 411 cm<sup>2</sup>/ml
- Opening dimensions : 15 x 17,6 mm
- Color : black
- Material : polyamide with fiber glass

### ACCESSORIES:

- This grating can be positionned on differents types of Nicoll channel :  
Kenadrain channel width 100 int. / DR100BN, DR101BN, DR102BN, DR103BN, DR104BN.
- Locking : 1 clips system per grating on galvanised locking bar stainless steel edges and locking device on request.

DR100BN

DR101BN

DR102BN

DR103BN

DR104BN

### IMPLEMENTATION:

- Follow the Nicoll recommendations specified in the Technical Guide.
